Our new headquarters marks a shining moment for Stella that points to a focus on company growth design technology and market expansions. Stella's brand new headquarters is a 7.500m complex complete with offices a laboratory and a showroom space for holding events and a product development hub Precision and intensity are what characterize our ARs PROs originality

With options like the 6 and 7 beam angles and dimmable versions Stella's ARs PRO offer several lighting possibilities for highlighting elements or for adding a scenic light to any space Stella's PRO LED Strips present 24V models with higher density of LEDs per meter providing homogenous lighting and no visible LED dots

The structure of PRO LED Strips helps to dissipate heat granting them a greater lifetime including IP65 and IP67 options

* PRODUCT AVAILABLE WHILE STOCKS LAST Fill out this form and get your digital version of our catalogue! Download Stella's new catalogue and check out several new products in this updated edition Specialist in lighting offers solutions in LED technology and in the area of decoration

All Stella products are developed in our own laboratory Stella is a Brazilian company that for 16 years has been standing out as one of the country's lead brands in the lighting market

As a reference for quality we have the purpose of creating new experiences through design and technology applied to lighting

This knowledge has so far resulted in more than 700 different products offered in Brazil 140 national patents and more than 100 patents Stella introduces the S.DEEP series in which the functionality of dimmable recessed panels meets the elegance of Stella's signature creations

The products remarkable recessed light source provides a sense of depth and visual refinement while the backlighting allows for an uniform light distribution

S.DEEP's high CRI delivers superior color fidelity and its high power factor The super thin edges and the straight lines of the Deep Recessed Panels provide a timeless aspect to environments uniting the practicality of panels with the precise design from Stella

The 20mm recess of the light source minimizes light reflection and consequently glare effects Stella's Systems line also offers ECO Tracks practicality an ideal option for accent light. To be used with Stella's accessories and Spot Flow spotlights.
