Sep 22 2010 Thee thou and thine or thy are Early Modern English second person singular pronouns. Thou is the subject form nominative thee is the object form and thy thine is the possessive form

Before they all merged into the catch all form you English second person pronouns distinguished between nominative and objective as well as between singular and plural or formal thou singular Don tthouthose asthou thee

Yorkshire proverb advising young people in particular against being overly familiar with their betters

An interesting exception though is that thou is used of deities most particularly given the history of the English of the Christian god though also of others. Thou was the second person nominative cased pronoun. Simply put it was the second person form of he subject

Its roots go very far back but in Old English it was rendered. Thee on the other hand was the second person accusative cased pronoun analogous to our third person him

In OE this was or c May 14 2011 Thou art is normally shortened to thar tha in Yorkshire but thee thar thine are still relatively common and useful if you want to refer to just one person

So Don ttheethar me theethars them that tharsthee makes perfect sense oop north edit my understanding is that the plural you your originally was a polite form used to social superiors and thee thine was the familiar like tu Mar 3 2020 Does English use the word thou in situations nowadays? For example to humiliate an opponent by being overly familiar? Mar 26 2014 The word thou and similar variations of the Latin tu in other languages was used between people for informal speech and talking to people of lower standing

So why did people use it most In Early Modern English thou was the singular and you was the plural

Plural you came to be used as a polite form of address similar to the French vous which is also used for the plural but over time this polite form became more and more common eventually displacing the singular thou altogether Jun 26 2019 Furthermore Thou is a subject form while thee is the object form

so could someone tell me if I can use them as following. Who are thou? instead of Who are you? I have come to see thee. instead of I have come to see you. What are thy future dreams? instead of What are your future dreams? Mar 16 2018 I doubt this is a fax or anything

That question is all about the difference between thou and thee
