Tiger The tiger *Panthera tigris* is a large cat and a member of the genus *Panthera* native to Asia

It has a powerful muscular body with a large head and paws a long tail and orange fur with black mostly vertical stripes Dec 20 2025 tiger *Panthera tigris* largest member of the cat family Felidae rivaled only by the lion *Panthera leo* in strength and ferocity it is a famous apex predator meaning without a natural predator or enemy Nov 3 2024 The tiger is a large carnivorous mammal and the largest living big cat

Their distinctive fur is orange and white with dark vertical stripes. The pattern of stripes is unique to each individual Based on the best available information tiger populations are stable or increasing in India Nepal Bhutan Russia and China

About 5 574 tigers remain in the wild according to the Global Tiger Forum but much more work is needed to protect this species if we are to secure its future in the wild Tigers wait until dark to hunt. The tiger sprints to an unsuspecting animal usually pulling it off its feet with its teeth and claws

If the prey animal is large the tiger bites its throat Among the largest species of cats in the world tigers are powerful hunters with sharp teeth strong jaws and agile bodies. They range across Asia from Russia all the way to Sumatra and mainland Southeast Asia

Scientists still have much to learn about these beautiful endangered cats Sep 23 2024 Tigers scientifically known as *Panthera tigris* have striking orange coats black stripes and piercing eyes

Like other big cats tigers are at risk. Tiger populations occupy about 5 percent of their historical range making conservation necessary There are currently six subspecies of tigers each living in different habitats flooded mangrove forests arid forests tropical forests and taiga

The different subspecies live in small areas of Asia India and Russia. The largest subspecies lives in snowy areas of Russia The tiger *Panthera tigris* is the largest living cat species and a member of the genus *Panthera*

It is among the most recognizable and popular of the world's charismatic megafauna 3 days ago As the golf world joins its most beloved living legend in celebrating his 50th birthday here are 50 facts about the man who is Tiger Woods.
