This is the officialGMRScfrequencieslist forGMRScradios includingGMRScreeper andGMRSclicensing information Sep 17 2025 Current FRS GMRScChannels effective September 28 2017 Note that the oldGMRScChannels the 462 MHz splinterchannelsand the 462 467 repeaterchannels were not required to narrowband

FRS channel numbers commonly used by 22 channelradiosare shown in the leftmost column Nov 2 2022 The chart below listsGMRScfrequenciesas assigned by the FCC along with their channel numbers maximum allowable power and maximum allowable bandwidth General Mobile Radio Service GMRSc RadioFrequencyChart GMRScHas been around for many many years

Before about 1989 individuals and organizational entities could obtain licenses to operate this band. This changed around 1989 so that only individual people can obtain licenses

However all previous licensees were grandfathered in Jan 19 2023 TheGMRScradiosuse the UHF channel whereas the majority of national park and guide services use the VHFfrequency

Very highfrequency abbreviated as VHF from30 MHz to 300 MHz FMradiobroadcasting television transmission two way land mobileradiosystems amateurradio and maritime communications all use VHFfrequencies General Mobile Radio ServiceTIDRADIO TD H5GMRScradios

TheGeneral Mobile Radio Service GMRSc is a land mobile FM UHFradioservice designed for short range two way voice communication and authorized under part 95 of the US FCC code

It requires a license in the United States but someGMRSccompatible equipment can be used license free in Jul 4 2024 GMRScFrequencyandChannelsList The General MobileRadioService GMRSc is a licensedradioservice that is part of the familyradioservice bands used in the United States

It useschannelsaround 462 MHz and 467 MHz in the UHF band CTCSS DCS Codes CTCSS codes are sub audible tones that are measured by audiofrequencyin hertz. DCS codes are bit streams added to aradiocarrier. Consumerradiosoften have just an ID code number to identify each specific code

The Codes listed are Midland. Both Midland and Motorola ID codes for CTCSS codes up to 38 are the same. The DCS codes are different
