Aug 12 2025 Why do tonsils get infected? The tonsils are the immune system's first line of defense against germs and viruses that enter the mouth. This work puts the tonsils at high risk of infection. But the tonsil's immune system work slows after puberty

This might explain why adults rarely have tonsillitis Aug 12 2025 Surgery to remove tonsils called a tonsillectomy can treat tonsillitis that comes back often ongoing tonsillitis or bacterial tonsillitis that doesn't respond to antibiotic treatment

Tonsillitis that comes back often is defined as At least seven times in the year before. At least five times a year in the past two years. At least three times a year in the past three years. Apr 9 2025 Tonsil cancer is a type of head and neck cancer

Head and neck cancers include cancers of the tongue the back of the tongue which you can't see when you look in the mirror the tonsils or the throat which includes several body parts such as the larynx or voice box. Tonsil cancer is considered a kind of throat cancer. Tonsil cancer happens in the part of the throat that's behind the mouth called the oropharynx

Cancer that starts in this part of the throat is sometimes called oropharyngeal cancer. Treatments for tonsil cancer include surgery radiation therapy and chemotherapy Jun 6 2024 Tonsil redness and irritation are common symptoms of tonsil stones

In some instances they can cause chronic tonsil inflammation or infection of the tonsils called tonsillitis May 24 2023 The tonsils play an essential role in keeping you healthy. These small oval shaped pads at the back of the throat are part of the immune system and make white blood cells

These cells attack and prevent germs that enter your body and making you sick. While small in size the tonsils can cause considerable pain and discomfort if inflamed. This inflammation is called tonsillitis and typically Dec 27 2024 Tonsil cancer is a type of head and neck cancer

Head and neck cancers include cancers of the tongue the back of the tongue which you can't see when you look in the mirror the tonsils or the throat which includes several body parts such as the larynx or voice box Sep 3 2022 La amigdalitis es la inflamación de las amigdalas dos masas de tejido de forma ovalada situadas a ambos lados de la parte posterior de la garganta
