Oct 24 2011 General platform technical support for NinjaTrader 7 Jun 25 2024 Price Levels allow you to customize the visibility of various data driven price lines on your charts in the NinjaTrader Web app. To toggle and edit the available Price Levels follow these steps Step 1 Hover your mouse over the Chart module then click the rectangular Chart Settings icon at the top

Step 2 From the dropdown that appears select Price Levels

Step 3 Within the Price Levels Oct 3 2022 How to show a horizontal line following the current price? Hi Is there a built in price line indicator or setting somewhere that enables a horizontal line showing current price? Thanks May 21 2021 Dear Support I am using NT8 with ticks for the ES instrument and I would like to have an indicator that can show the Current Market Price as a line that extends from the current last price back to the past for price analysis

I know this can be easily achieved with an SMA by doing the following Select Simple Moving Average Apr 12 2024 The NinjaTrader 8.1.3.0 Priceline indicator seems to be behaving strangely

On a EURUSD chart when the Forex market is closed the data presents correctly as expected even though it is after market hours. Now Add the Priceline indicator. Select the three available lines Ask Bid Last

Behaviour can vary but typically Nov 14 2024 Bar Timer NinjaTrader Desktop This article provides an overview of the Bar Timer Indicator for Charts on the NinjaTrader Desktop app Nov 19 2018 I noticed that the only indicator without a documentation page in the NinjaTrader 8 help guide is the PriceLine indicator which was added back in v

8.0.14.2. When I google PriceLine NinjaTrader 8 there seems to be a third party vendor that also has a PriceLine indicator but I don't want to assume that these two indicators are the same Jan 19 2021 The new PriceLine script needs to add the EMA SMA indicator to get price updates from it in OnBarUpdate

When the value of the Close [0] price is above/below the MA value the indicator needs to use a different brush color so you will have to set up an extra brush in the script as well Mar 2 2024 Curious it lags behind the actual current price

Looking at PriceLine I see it's calling OnRender and OnMarketData I assume I need to refactor the timer right? Last edited by funk10101 03 04 2024 09 13 AM Apr 26 2022 Hello 90bideven Thank you for your post

This indicator is publicly available on our NinjaTrader Ecosystem website Vertical Line Through All Panels Here is a basic guideline of how to import NinjaScript add-ons in NinjaTrader 8 Note To import NinjaScripts you will need
