UrbanDevelopment As the world s largest multilateral financier ofurbandevelopment the World Bank works with national and local governments to build more livable sustainable and resilient cities and communities Dec 8 2025 UrbanDevelopment As the world s largest multilateral financier ofurbandevelopment the World Bank works with national and local governments to build more livable sustainable and resilient cities and communities Extremeurbanheat is becoming an urgent challenge for Bangkok threatening lives livelihoods and the citys economic resilience

TheUrbanHeat Island UHI effect exacerbates this crisis turning built up areas into heat traps that contribute to heat related mortality lost productivity higher energy consumption and other negative outcomes The Handbook onUrbanHeat Management in the Global South provides practical strategies technical guidance and real world solutions to help cities manage extremeurbanheat Dec 23 2024 Dhaka December 22 2024 Bangladesh and the World Bank signed two financing agreements totaling \$900 million today to help the country achieve environment sustainability inclusive growth and climate resiliency including inurbaninfrastructure World Bank support Under the Amaravati IntegratedUrbanDevelopment Program the World Bank will support the first phase of the citys development

The Program will help strengthen the institutions and build the capacity needed for an inclusive city that can serve as a growth hub for the state and create opportunities for its residents Jun 3 2025 This report highlights the substantial investments required to build more resilient and low carbon cities in low and middle income countries

These investments are crucial to strengthen essential infrastructure unlock new jobs and ensure more sustainableurbandevelopment

Resilient and low Mar 24 2025 A new World Bank financed investment will enhance mobility and accessibility in Tanzanias capital Dodoma unlocking economic opportunities and creating over 10 000 new jobs by 2030 while boosting the citys economic output by 2% Improvingurbaninfrastructure can help Indonesia gain more benefits from urbanization rather than challenges Jul 22 2025 Investments in adaptation will also save over 130 000 lives from extreme heat impacts by 2050

With over 50 percent of theurbaninfrastructure required for 2050 still to be built India has a critical opportunity to drive resilienturbaninfrastructure development. The imperative for India to build resilient cities at scale is clear.
