Mar 14 2024 Copilot for Microsoft 365 = is a collection of experiences with a variety of invocations inside apps generally known as M365 and appearing under different modalities all for which there really isn t a good guide to product capabilities Aug 7 2023 Copilot X isnt great since it get destroyed by simple ChatGPT in understanding intent

However Copilot is useful for generating structure inside of functions when youre replicating patters youve established in other parts of your code

But if youve only used it for a month it sounds like youre trying too hard Mar 18 2024 I think Chatgpt 4 is pretty solid but Im doing a lot of coding in vscode for python and visual studio for C

Im wondering if theres any advantages to using copilot instead Oct 30 2023 You can ask Copilot to troubleshoot something and it will let you open a troubleshooter asking it to cast your screen opens the Cast quick setting and voice control has been supported since late September just before Copilot started rolling out to retail Nov 14 2023 GitHub CoPilot is quite good

Not very impressed with Windows CoPilot. If you ask it to check for updates it brings up an article on how to check for updates. It s supposed to be able to handle basic tasks like that Microsoft 365 Copilot your copilot for work

Word Excel PowerPoint Outlook Teams everything got boosted with the powerful GPT 4 AI model Microsoft Copilot Task Oriented Personality Practical and Efficient Copilot is designed to assist with specific tasks within Microsoft Office applications focusing on productivity and efficiency

Professional and Direct The tone is more formal and business like aimed at helping users complete work related tasks quickly and accurately Title. Been using Copilot for about 1.5 years now and I m generally happy with it

It does my budgeting and splits correctly but my biggest gripes are lack of bulk transaction addition and Windows support. As a Windows power user I m pretty frustrated by the de prioritization of building a Windows app

Thinking about moving to Monarch or Simplifi has anyone else made the jump? Has anybody Comparing things getting detailed info on things like softwares products prices features etc summarising posts articles and more

It makes these tasks much faster to execute especially getting info on things and comparing them. And I use windows copilot bing and chat gpt almost everyday to get a feel for how these work and can show different results in different contexts

At this Hi ya II Is Microsoft Copilot safe from an IT security perspective? it s
