Jan 21 2025 Heart failure occurs when the heart muscle doesn't pump blood as well as it should

When this happens blood often backs up and fluid can build up in the lungs causing shortness of breath Jan 21 2025 Write down any symptoms you're having including any that may seem unrelated to heart failure

Write down key personal information including a family history of heart disease stroke high blood pressure or diabetes and any major stresses or recent life changes Treatments for heart failure can help improve the symptoms of both heart failure and cardiac asthma

Overuse of treatments for true asthma such as rescue inhalers may be harmful and may worsen heart issues Sep 19 2023 These conditions can bring on intense symptoms like a severe cough rapid breathing and difficulty breathing

They also can bring on wheezing a high pitched noise usually heard on the exhale

People with heart disease especially congestive heart failure are already taxing their lung and cardiac reserves Jul 10 2024 A heart failure action plan or self check plan provides clear instructions for you and your caregivers to follow should any new symptoms develop

You can work with your healthcare team to create a plan that's best for your type of heart failure and your basic abilities Jul 28 2023 Congestive heart failure causes one or both of the heart's lower chambers stop pumping blood well

As a result blood can back up in the legs ankles and feet causing edema Jan 21 2025 Learn about this chronic disease that needs lifelong management

Find out what treatments help you live longer and may even strengthen your heart Jan 21 2025 Heart Blood Health Discussions 31 Replies Sun Dec 28 2025 260 Replies Wed Dec 24 2025 49 Replies Tue Dec 23 2025 May 27 2022 It's usually a result of heart failure

When a diseased or overworked left lower heart chamber left ventricle can't pump out enough of the blood it gets from the lungs pressures in the heart go up Aug 10 2022 Some heart failure warning signs are intuitive such as ankle swelling breathlessness chest pain a heartbeat that feels rapid or irregular and fatigue while exercising Dr
