Detailed information about all U.S. cities counties and zip codes on our site City data Jan 29 2025 Starting the 2025 thread. Early notice of change to PTC designation for this season PTC designation expands an additional day for earlier storm info

Previous was PTC could be called before a storm actually forms up to 48hrs or less if Tropical Storm or Hurricane winds may reach a land mass now its up to 72hrs prior watches still issued 48hrs prior wind arrival

PTC is for advanced lead Cover on during the day then you will getwarmwater!! Have fun in yourwarmpool

My cover wore out and my water is in the upper 60 s and will fall even more this week with cooler nite and day Oct 9 2009 Please register to post and access all features of our very popular forum. It is free and quick

Someone all the time is getting tired of feeding their pool and will put a heater on sale. Bob E Aug 19 2012 If the sun is out and it iswarm you even feel good getting out. For night swimming it seems that 88 90 feels more comfortable as you will get cold out of the water

The pool heated up to 92 during our last heat wave and was not refreshing at all during the day at night it was a dream! The predominant weather influence is thewarm moist Pacific air keeping temperatures mild throughout the year

Summers are dry and sunnythe city averages 329 days of sun per yearwith most of the precipitation occurring during the winter months Apr 21 2020 This was a recent thread on the perfect pool temperature. My question is what does the temperature of the air need to be to use your pool

This is probably dependent on how you use your pool. My wife will swim laps down to a low air temperature of 60F. She swims her laps at 5 00am before work Jan 25 2015 So you can see that if you don t use a solar cover the water won t bewarm
