Detailed information about all U.S. cities counties and zip codes on our site City data Jan 29 2025 Startingthe2025 thread. Early notice of changetoPTC designation for this season PTC designation expands an additional day for earlier storm info

Previous was PTC could be called before a storm actually forms upto48hrs or less if Tropical Storm or Hurricane winds may reach a land mass now its upto72hrs prior watches still issued 48hrs prior wind arrival

PTC is for advanced lead Cover on duringtheday then you will getwarmwater!! Have fun in yourwarmpool. My cover wore out and my water is intheupper 60 s and will fall even more this week with cooler nite and day Oct 9 2009 Please registertopost and access all features of our very popular forum

cities counties and zip codes on our site City data Mar 14 2013 If your spa is bigger or isn t covered I urge youtobitthebullet and get a gas heater. You will needtheadditional outputtokeep itwarm. As mentioned before look on Craigslist

Someone allthetime is getting tired of feeding their pool and will put a heater on sale. Bob E Aug 19 2012 Ifthesun is out and it iswarm you even feel good getting out

For night swimming it seems that 88 90 feels more comfortable as you will get cold out ofthewater. Thepool heated upto92 during our last heat wave and was not refreshing at all duringtheday at night it was a dream! Thepredominant weather influence isthe warm moist Pacific air keeping temperatures mild throughouttheyear

Summers are dry and sunnythecity averages 329 days of sun per yearwith most oftheprecipitation occurring duringthewinter months Jan 25 2015 So you can see that if you don t use a solar coverthewater won t bewarm

A bubble type solar cover should increasethewater temperature by around 10 15F putting your June and October temperatures intothe77 83F range while your August peak could be inthe82 87F range May 18 2025 Please registertopost and access all features of our very popular forum. It is free and quick
