In the 00s wasian was mostly used to describe a wannabeAsian so when younger White Asianmixed people started using it to describe themselves I was like ??? But I guess its OK now that people generally acceptwasianto stand for White Asianmixed over wannabeAsian For context Im a 35 yo male very loving and relatively tall fit and successful but having trouble finding the right girl

How do you all deal with finding someone who matches yourwasianappreciation for both cultures? Is it unreasonable or unrealistic for me to keep looking for someone who has a similar outlook towards both cultures? This is the best reply

As someone whoswasian Ill admit I get a bit annoyed sometimes when people point out my features or which race I look more like so I respond similarly to how you do when people comment on your sons features

To be fair the fetishization of mixed race children is a huge problem across the board. Wasians are the only biracial Asians included in discussions on issues facing Asians or Hapas most of the time May 21 2023 There isn t anything wrong with beingwasian

I m half Chinese half white and have had a very similar struggle as you where white people tell me im not white and myAsianfriends and family tell me I m notAsian

I grew up very close to my dads side which is toisanese eating these foods and celebrating these customs but not speaking the language r wasianbeauty Place to share photos ofwasian half white halfasian people celebrities influencers you etc

and discuss topics related to What type ofwasianare you? Where did you grow up? Has anyone ever been told you that you look monoracial? For example just white or justasian? Because if people were about to assume my ethnicity they would just say latino and mulatto or North African lol As someone whoswasianI do try to hold others of my identity accountable especially if they seem to only claim theirasianheritage when its convenient

Ive come across wasians who will antagonize monoracialAsianpeople and Im just like why are you complaining about not being accepted when you antagonize your monoracial counterparts? Jul 23 2023 Jenny Han is quite literally theAsianMindy
