Jan 24 2025 The World Economic Forum's Annual Meeting 2025 has come to a close in Davos, Switzerland.

Leaders came together for a week of discussions under the theme 'Collaboration for the Intelligent Age'.

Compiled here is our coverage of the key takeaways and quotes from the week across the five main themes. Jul 14 2025 A new report finds audiences increasingly turning to social media and video for news with podcasting, personalities and AI answers emerging as trends. Aug 5 2025 2025 has been marked by significant global shifts including increased geopolitical instability, the accelerating impact of AI and a changing labour market. Jul 14 2025 With an evolving technological landscape and shifting social norms and culture, generation divides appear to be growing.

What can we do to bridge the gap? Aug 22 2025 Technological advancement particularly since the advent of AI has been driven by many interests in recent years but humanity isn't one of them.

Society is experiencing a humanity deficit, a widening gap between prioritizing innovation and neglecting what it means to be human.

Unless we collectively recognize the risks that unchecked technology poses to humanity and human evolution. Jan 15 2025 The Global Risks Report 2025 analyses global risks to support decision makers in balancing current crises and longer term priorities. Dec 3 2025 China's approach to renewable energy buildout combines large scale investment, technological innovation and market reform.

China is installing more renewables than any other economy but that rollout is not without its challenges.

How China overcomes market financing and systemic challenges holds lessons for other economies investing in renewables. The Annual Meeting 2026 of the World Economic Forum will take place at Davos Klosters from 19th to 23rd January.
