At the weekend is the British usage on the weekend is the American form Feb 19 2006
In April I wash the car at seven o'clock on Mondays

On the weekend does not necessarily refer to any particular weekend in the same way
that this weekend would although you can use On weekends I wash the car or On
the weekend I wash the car for a more generalised Oct 26 2005 I agree that on
the weekend as if a weekend were a day since on is used for days or at the weekend
as if the weekend were the end of the week and hence a point in time since at is
used for points in time are more natural Nov 28 2018 What's the difference
between at this weekend and this weekend when they are used in a sentence

How do we use them correctly? For example can I say I am going to visit my
friends at this weekend Oct 21 2015 which is the right grammatical saying from these
I will do my work on the weekend I do my work in weekends or I will do my work at
the weekend ? Jun 13 2022 Now weekends as we now know it is a U.S

invention. The practice of organising employment in a way that provides for most
people not working on both Saturday and Sunday first appeared in the U.S

in early twentieth century became common in that country in the decades that
followed and then spread to most of the world after the Second World War Oct 29
2018 Where I live in southern California I often hear weekend referred to as
plural eg on the weekends

Is this proper English and is it commonly heard elsewhere or is it just
ignorance unique to my region May 2 2017 As has been pointed out several times on
this site Her Majesty and her subjects never do things ON the weekend. They do
things on Saturday and on Sunday but NEVER on the weekend

They do things AT the weekend and OVER the weekend seldom during the weekend Dec 2
2006 The adjectival or attributive version is generally weekend weekend bag
weekend sailor. Something for the weekend is always so There are no examples of
week end or weekend being used to mean the end of the week

Edit Correction there is one example for definition 1.c The end i.e. the last
day of the week Saturday. dial. The weekend would be the 6th 7th

How do you refer properly to the coming weekend This weekend or Next weekend ? I
believe that using next weekend would refer to the 13th 14th and this weekend
would refer to this week's end. Technically the coming weekend 6th 7th would be
the next weekend on the calendar. So which is correct?.
