At theweekendis the British usage on theweekendis the American form Feb 19 2006
In April I wash the car at seven o clock on Mondays

On theweekenddoes not necessarily refer to any particularweekend in the same way that thisweekend would although you can use On weekends I wash the car or On theweekend I wash the car for a more generalised Oct 26 2005 I agree that on theweekend as if aweekendwere a day since on is used for days or at theweekend as if theweekendwere the end of the week and hence a point in time since at is used for points in time are more natural Nov 28 2018 What s the difference between at thisweekend and thisweekend when they are used in a sentence

How do we use them correctly? For example can I say I am going to visit my friends at this we Oct 21 2015 which is the right grammatical saying from these I will do my work on theweekend I do my work in weekends or I will do my work at theweekend ? Jun 13 2022 Now weekendas we now know it is a U.S

invention. The practice of organising employment in a way that provides for most people not working on both Saturday and Sunday first appeared in the U.S

in early twentieth century became common in that country in the decades that followed and then spread to most of the world after the Second World War Oct 29 2018 Where I live in southern California I often hearweekendreferred to as plural eg on the weekends

Is this proper English and is it commonly heard elsewhere or is it just ignorance unique to my r May 2 2017 As has been pointed out several times on this site Her Majesty and her subjects never do things ON theweekend. They do things on Saturday and on Sunday but NEVER on theweekend

They do things AT theweekendand OVER theweekend seldom during theweekend Dec 2 2006 The adjectival or attributive version is generallyweekend weekendbag weekendsailor. Something for theweekend is always so There are no examples of week end orweekendbeing used to mean the end of the week

Edit Correction there is one example for definition 1.c The end i.e. the last day of the week Saturday. dial. Theweekendwould be the 6th 7th

How do you refer properly to the comingweekend Thisweekend or Nextweekend ? I believe that using nextweekend would refer to the 13th 14th and thisweekend would refer to this week s end. Technically the comingweekend 6th 7th would be the nextweekendon the calendar. So which is correct?.
