Oct 17 2023 Are there any benefits when buying from Steam instead of EA Play regarding the possibility of future modding? Because with EA Play I get 10% discount but if Steam is more beneficial I will buy it there Apr 15 2024 EA Play is separated across all its launchers and difference consoles so like a sub on Steam doesn't give you the sub from the EA Launcher for example

The games are similar across the platforms but some may have games that others don't. Sounds like an issue with the EA app I just switched to Ultimate from pc and can confirm EA games work without issue

Try repairing your EA app or just uninstalling it and reinstalling. Can't purchase an EA Play subscription. Hello I was subscribed to EA Play during the year 2021

And today when I wanted to do it again I received the following message: EA Your purchase could not be completed because it looks like you already own one of the games you are trying to buy. For EA Play you must have a Game Pass sub or EA Play sub for Steam specific which is a separate subscription than on EA App to play Battlefield II you must purchase through Steam or EA App the EGS version cannot be played on GFN Dec 15 2020. Next it will ask to link your Xbox account with your EA account

You are set and now both accounts are linked and all EA Play games that should be free with Game Pass should be available with your EA account in the EA Desktop app. EA if you are looking for programmers or help redesigning this I am available! Jan 1 2022 EA Play PC can't find my installed game

Any way to fix this without having to download it again? I have FIFA 21 and Madden 22 installed on my hd and for some reason when I launch the EA Play app the games are not there and the app is asking to download the games

The games files are located in the C:\Program Files\EA Games\ Sep 23 2020 If EA play is the same as EA access then you'll get access to a lot of EA games. They're not demos its the full game

As far as I've seen a lot of the new titles UFC Need for Speed etc come to EA access just not right away Apr 22 2022 The biggest thing that EA Play Pro offers is Digital Deluxe editions of the newer EA games

They appear on there day and date with the release whereas EA Play Game Pass users have to wait for around 6 months to a year depending on the item Dec 5 2022 Or shall I just buy them from EA directly? Is there any issues in performance or is it the same as it's still gonna use the EA Launcher to play them? I can't think of any benefit through buying them from Steam please enlighten me.
