Jan 19 2007 Need some advice here Yesterday my wife called me at work and said I
m watchingaweweasel run around on your work bench right now!. Since we ve
seenaspecific weasel in our back yard by our creek more than once I thought she
really might be looking at one

She backed the car out of the gara Sep 26 2007 I would not
recomendWolverineboots. I gotapair for christmas 2 years ago 400g thinsulate
kind ofalight boot

I do like that they are light and i like to use them ice fishing when it is not
too cold and hunting when they are not too cold Nov 18 2014 I am looking for the
warmest pair of boots people have found for stand hunting

My son has trouble with cold feet and I want to get him the best so that cold
feet is not an issue anymore. Please let me know what you have found. Thank you
Aug 12 2011 At my place of business we have an animal digging multiple large
holes around our property

we are on the edge of town withalarge mowed area bordered byacorn field

We have pallets of landscape block organizied out in the grass and whatever this
animal is is digging tunneling under the bloc I dont think this is too far out
of the topic but i would like to know if any of you hunters have experienced
weird sounds noises feelings unexplained things while out hunting early in the
morning late in the evening it would be cool to hear it

the only thing i can say is last year in the tree Jun 14 2007 Finally got pics
from last year s fisher trapped between Christmas and New Year s. Female believe
it was 4.5lbs getting tanned right now. First animal I ve ever trapped. Also
hadawhite patch between its front legs.
