%xx x lesbian% Difference between XX +UseParallelGC and XX +UseParNewGC Difference between Xms and Xmx and XX.

May 19 2020 3 Using XX +UseParNewGC along with XX +UseConcMarkSweepGC will cause higher pause time for Minor GCs when compared to XX +UseParallelGC

This is because promotion of objects from Young to Old Generation will require running a Best Fit algorithm due to old generation fragmentation to find an address for this object XX MaxPermSize=size Sets the maximum permanent generation space size

This option was deprecated in JDK 8 and superseded by the XX MaxMetaspaceSize option. Sizes are expressed in bytes. Append the letter k or K to indicate kilobytes m or M to indicate megabytes g or G to indicate gigabytes

References How is the java memory pool divided? Nov 25 2015 So what s the equivalent replacement for it? XX +UseG1GC? Background The application has a heap of 8GB and creates a lot of short living objects. I noticed that it often paused for some seconds to do garbage collection

Out of curiosity I added the Xincgc and found that the pauses were gone and overall performance improved ~4 times Sep 26 2014 string1 =xxx xx xxxx or string1 =xx xxxxxxx How can I make the regex accept both kinds of values for the same element? Thex s represent numbers only

so total number of digits = 9 anything between 0 9 total number of elements in the value is either 11 or 10 depending on which format

and total number of dashes is either 2 or 1 I am trying to extract the url for facebook video file page from the facebook video link but I am not able to proceed how. For example The facebook video url I have Jan 17 2024 I found it hard to decipher what is meant by working directory of the VM

In my example I was using the Java Service Wrapper program to execute a jar the dump files were created in the directory where I had placed the wrapper program e.g. c \myapp\bin

The reason I discovered this is because the files can be quite large and they filled up the hard drive before I discovered their location Nov 28 2024 Since we are getting java.lang.OutOfMemoryError Metaspace we have planned to increase the XX MaxMetaspaceSize size

Question Currently we are using 6GB of RAM in the Server and if we want to increase the size for XX MaxMetaspaceSize what is the maximum value we can set? Oct 2 2015 You are not alone in fixing stop the world GC events by setting the XX +DisableExplicitGC flag

Unfortunately and in spite of the disclaimers in the documentation many developers decide they know better than the JVM when to collect memory and
