Sep 22 2017 There is no difference. Youare is normally contracted to you rein speech because English doesn't like two vowels without a consonant to separate them and one of them gets deleted. Either you re or youare can be used speaker's choice

The same thing applies to I'm he's she's we're and they're among other contractions. It's just colloquial English that's all Aug 29 2021 Please clarify your specific problem or provide additional details to highlight exactly what you need

As it's currently written it's hard to tell exactly what you're asking Apr 2 2019 You idiot OR You're an idiot I want to know which one is correct because in the first one there is no auxiliary verb

As I know if I wanted to say that someone is like someone thing I'll say The two sentences mean the same exact thing

However as a native English speaker in the US I would absolutely say it's far more common to hear You're welcome. Youare welcome is a phrase I've said on multiple occasions but it was to stress the sincerity of the statement

Actually saying youare rather than the contraction you re is unusual which is why I specifically used it to stress How do I look? How am I looking? Both are grammatical and fine to use in conversation. I use looking good when I'm encouraging someone to keep doing whatever it is they're doing

For example You're looking good! The time you're spending at the gym is making a difference. or You're looking good in the ring Ali just watch out for Frazier's left hook

This sentence uses present continuous tense. It represents an action that is happening now and might continue in the near future. You have been doing great

This In the song You're so vain Carly Simons says You walked into the party Like you were walking on a yacht Your hat strategically dipped below one eye Your scarf it was apricot You had o Aug 23 2022 It does not sound particularly idiomatic in American English except perhaps in a military context. Yes

Keep on doing that sounds more natural to me but perhaps not to a speaker of British English. Notice the contrast between this and that between the two speakers Aug 11 2019 I don't really understand the rubber and glue reference in
