Enjoy the videos and music you love upload original content and share it all with friends family and the world onYouTube Dec 18 2025 Explore our official blog for the latest news aboutYouTube creator and artist profiles culture and trends analyses and behind the scenes insights With theYouTubeMusic app enjoy over 100 million songs at your fingertips plus albums playlists remixes music videos live performances covers and hard to find music you cant get YouTubes mission is to give everyone a voice and show them the world

Learn about our brand community careers and more Get the officialYouTubeapp on Android phones and tablets. See what the world is watching from the hottest music videos to whats popular in gaming fashion beauty news learning and more YouTube. 108 942 953 likes 98 995 talking about this

The latest and greatest music videos trends and channels fromYouTube OfficialYouTubeHelp Center where you can find tips and tutorials on usingYouTubeand other answers to frequently asked questions Get the officialYouTubeapp on iPhones and iPads

See what the world is watching from the hottest music videos to whats popular in gaming fashion beauty news learning and more YouTubeKids provides a more contained environment for kids to exploreYouTubeand makes it easier for parents and caregivers to guide their journey It sYouTube s birthday week and we re celebrating by rewatching the videos that kickstarted careers launched viral trends and inspired iconic pop culture moments Output DebuggingwithGDB During the execution of a command file or a user defined command normalGDBoutput is suppressed the only output that appears is what is explicitly printed by the commands in the definition

This section describes three commands useful for generating exactly the output you want Jan 10 2025 GDBstands for GNU ProjectDebuggerand is a powerfuldebuggingtool for C along with other languages like C++

It helps you to poke around inside your C programs while they are executing and also allows you to see what exactly happens when your program crashes.GDBoperates on executable files which are binary files produced by the compilation process

For demo purposes the example below Examining Data The usual way to examine data in your program is with theprintcommand abbreviated p or its synonym inspect

It evaluates and prints the value of an expression of the language your program is written in see section UsingGDBwith Different Languages IfGDBis printing a large array it stops printing after it has printed the number of elements set by the setprintelements command
