Dec 12 2025 Is IdentityGuard worth the money? IdentityGuard is a good investment in cybersecurity. For most people or businesses it's worth the money to know that their personal information is safe. As of December 2025 IdentityGuard is absolutely worth considering.

While removing credit monitoring from its entry level Value plan was an odd choice, IdentityGuard more than makes up for it with affordable pricing and strong core features. IdentityGuard is one of the top providers in the identity theft protection space with plans for individuals and families.

Read more on the cost pros and cons Dec 4 2025. If you prefer watching to reading, see our IdentityGuard video review below.

Gabe Turner, an attorney and our Chief Editor, breaks down IdentityGuard's features and app and shows just how well it works in protecting identities and personal information Aug 26 2025. If you're considering IdentityGuard for identity theft protection service, our guide explains all you need to know to see if IdentityGuard is right for you. Jun 11 2024 IdentityGuard can work well for anyone looking for identity theft protection, but it's an especially good value for families since its family plans cover five adults and unlimited children. Nov 26 2025 Ahead, we break down the features of IdentityGuard, looking at cost, insurance coverage, how many credit bureaus are monitored, dark web scanning, and fraud alerts. Aug 8 2025 IdentityGuard is a rock of an identity theft protection agency.

By this, we mean it provides solid, unwavering protection backed by the most reliable and resilient technology available to date. Nov 20 2024 IdentityGuard has a few standout features, including insurance coverage at every price point, plans that cover large families, and comparatively positive customer reviews. What impresses us most about IdentityGuard's feature set is their use of IBM's Watson.

Using artificial intelligence, IdentityGuard not only monitors and alerts you to existing threats but it's also constantly searching for new ones and redefining what it looks for.
