Im just starting out and i ve been trying to start an instagram account to market my products but starting to get incredibly hard for me to find mockups to post on ig

Should just buy placeit or are there any other alternatives i could use? Thanks so much Sep 21 2020 I m not familiar with placeit s design tool but provided you are using their elements to create unique designs you should be fine for copyright

If they have a pic of a dog available like your example everyone is allowed to use that for unique designs

Otherwise only the first person to use the pic of the dog would be allowed to use it! Good luck but sounds like you re fine to use the Apr 15 2023 Has anyone
